CONCRETE REPAIR NOTICE

TO: Residents along the reconstruction project
City of Cokato

DATE: May 17, 2022

The repair of concrete curbs, sidewalks, and driveways are planned to occur on Thursday, May 19th.

Please move your vehicle outside the project area by 7:00 AM to allow the Contractor to complete all needed repairs. Having your vehicle parked on the street within the project area may result in needed repairs not being able to be completed.

For residents who have driveway panels identified to be repaired:

In order for the concrete to cure adequately, **seven days** is required before any vehicles can drive over any replaced concrete. Therefore, you will not be able to access your driveway with your vehicle for approximately one week following the replacement of any concrete curb or pavement. Please move your vehicle out of your driveway and park on an adjacent street outside the project area by 7:00 a.m. on the date listed above so construction can progress smoothly. If construction is delayed due to inclement weather, assume it will proceed the following day.

If you have any questions or concerns at any time, feel free to contact the following person:

Dylan Idso, Project Engineer 320-979-5850

We thank you for your patience and understanding during this construction project.
